Spring Greetings!

I am so excited about the warmer weather, trees in blossom, and new green grass sprouting up in my yard. I like to garden and putter in my yard as a break from my paying job. I like everything but the ticks and horse fly's that I battle each year with different strategies yet succumb to a few battle wounds.

Spring is also a time for new people in new positions. As some of you might have read or heard last month, ASNE welcomed new Executive Director, **CAPT Dale Lumme USN (Ret.)** to succeed **Dr. Leigh McCue** as the Society's Executive Director.

As Executive Director, Mr. Lumme will be responsible for the day-to-day operation of ASNE's headquarters and direct liaison with the leadership of the Society's local sections.

Dale is a graduate of the U.S. Naval Academy, the U.S. Air Force War College, the Armed Forces Staff College and the University of West Florida. A career naval aviator, Dale served in a variety of positions of increasing responsibility, the capstones of which were Executive Assistant to the Atlantic Fleet Commander, Chief of Staff to the Chief of Naval Operations, and Staff Director of the Secretary of the Navy's Congressional Liaison Office.

In addition to a successful career in industry, Dale is a highly experienced and accomplished non-profit organization executive. He is a Trustee with the United States Naval Academy Alumni Association & Foundation Board of Trustees, the former National Executive Director of the Navy League of the United States and most recently the Executive Director of the Naval Historical Foundation.

Mr. Lumme succeeds Dr. Leigh McCue, who departed the position in December 2018, to resume a career in academia. Dr. McCue will continue to support the society as the Editorial Board Chairperson for the Naval Engineers Journal (NEJ).

ASNE TW will be hosting Mr. Lumme at the 2019 Mega Rust Symposia and the May Section Dinner.

Please check out all the speakers and events associated with [MegaRust 2019!](#)

Check out the ASNE TW Section [Website](#) for all the news, events, and more!!!

I look forward to continuing this year's journey with you!

Fair winds,
Jessica

Rear Adm. William Galinis is a native of Delray Beach, Florida. He is a 1983 graduate of the U.S. Naval Academy where he received a Bachelor of Science in Electrical Engineering. He holds a Master of Science in Electrical Engineering from the Naval Post Graduate School.

Galinis' tours as a surface warfare officer included damage control assistant aboard USS Vreeland (FF 1068) and engineer officer aboard USS Roark (FF 1053). He was selected for transfer to the engineering duty officer community in September 1991.

Galinis' initial engineering duty tour was with the supervisor of shipbuilding, conversion and repair, New Orleans, where he worked on both new construction and repair projects including assignment as the Amphibious Warfare Program Office (PMS 377) program manager's representative for the LSD (CV) Shipbuilding Program. He subsequently served as the senior damage control inspector for the Board of Inspection and Survey, Surface Trials Board as well as in a number of program office and staff positions including the DD 21 and LPD 17 Program Offices, Office of the Chief of Naval Operations in the Requirements and Assessments Directorate and in the Office of the Deputy Assistant Secretary of the Navy for Shipbuilding as the chief of staff.

Galinis' command assignments included LPD 17 Program manager — leading the commissioning of the first four ships of the LPD 17 San Antonio Class, delivering the fifth ship and starting construction on four additional ships; Supervisor of Shipbuilding, Gulf Coast overseeing Navy ship construction projects and Foreign Military Sales work in shipyards along the Gulf Coast and Wisconsin; and as the commanding officer of the Norfolk Ship Support Activity (NSSA) where he led ship maintenance and repair efforts.

Galinis' first flag assignment was commander, Navy Regional Maintenance Center during which time he also assumed the duties of deputy commander for surface warfare, Naval Sea Systems Command. He was responsible for managing critical ship modernization and maintenance, training, foreign military support contracts and inactivation programs.

Currently, Galinis is serving as program executive officer, ships, where he is responsible for Navy shipbuilding for surface combatants, amphibious ships, logistics support ships, support craft and related foreign military sales.

Galinis has received various personal, unit and service awards including the Navy Battle "E" Award (three awards).

Rear Admiral William J. Galinis
Program Executive Officer, Ships

March Dinner / Meeting Recap

The March 27th ASNE TW Dinner / Meeting at the Holiday Inn featured **Mr. Glen Sturtevant**, the Director for Science and Technology for PEO Ships and SEA-21. In this capacity, Glen is responsible for advising shipbuilding programs (sans aircraft carriers and submarines), and the in-service program offices on the development and transition of new technologies, capabilities or applications from the labs and commercial industry to the fleet. We had over 50 guests in attendance, and during the social hour, **Joe Kosteczko**, Program Manager for the ODU Virginia Modeling and Simulation Center (VMASC), showcased a table-top display and answered tough questions about this exciting program that aims to dramatically affect how we build and maintain ships in the future.

Guest Speaker Glen Sturtevant, Director for S&T, PEO Ships

Glen Sturtevant, Katherine Wallentine (Junior Program Analyst), Heather Kline (EA), Jessica Galassie, Pam Schools

Joe Kosteczko, Program Manager, VMASCO, ODU

ASNE Welcomes New Executive Director

The American Society of Naval Engineers (ASNE) announced the selection of **CAPT Dale Lumme** USN (Ret.) to succeed **Dr. Leigh McCue** as the society's Executive Director in a March 15 press release:

American Society of Naval Engineers Welcomes New Executive Director The American Society of Naval Engineers (ASNE) is pleased to announce the selection of CAPT Dale Lumme USN (Ret.) to succeed Dr. Leigh McCue as the society's Executive Director.

As Executive Director, Mr. Lumme will be responsible for the day to day operation of ASNE's headquarters and direct liaison with the leadership of society's local sections.

Dale is a graduate of the US Naval Academy, the US Air Force War College, the Armed Forces Staff College and the University of West Florida. A career naval aviator, Dale served in a variety of positions of increasing responsibility, the capstones of which were Executive Assistant to the Atlantic Fleet Commander, Chief of Staff to the Chief of Naval Operations, and Staff Director of the Secretary of the Navy's Congressional Liaison Office.

In addition to a successful career in industry, Dale is a highly experienced and accomplished non-profit organization executive. He is a Trustee with the United States Naval Academy Alumni Association & Foundation Board of Trustees, the former National Executive Director of the Navy League of the United States and most recently the Executive Director of the Naval Historical Foundation.

Mr. Lumme succeeds Dr. Leigh McCue, who departed the position in December 2018, to resume a career in academia. Dr. McCue will continue to support the society as the Editorial Board Chairperson for the Naval Engineers Journal (NEJ).

"Mr. Lumme is exceptionally well matched to the needs and ambitions of our society. I look forward to working closely with him." said ASNE National Council President, RADM Anthony Lengerich, USN (Ret.).

Please join ASNE in thanking Dr. McCue for her superb service as Executive Director, and in extending a warm welcome to Mr. Lumme as he assumes duties as our new Executive Director.

About ASNE: ASNE is the leading professional engineering society for engineers, scientists and allied professionals who conceive, design, develop, test, construct, outfit, operate and maintain complex naval and maritime ships, submarines and aircraft and their associated systems and subsystems. ASNE also serves the educators who train the professionals, researchers who develop related technology, and students who are preparing for the profession. Society activities provide support for the U.S. Navy; U.S. Coast Guard; U.S. Marine Corps; U.S. Merchant Marine and U.S. Army.

All Things MegaRust

MEGARUST 2019

NAVAL CORROSION CONFERENCE

MAY 14 - 16 | PORTSMOUTH, VA

RENAISSANCE PORTSMOUTH - NORFOLK WATERFRONT HOTEL

MegaRust is conducted annually to provide a consolidated focus on Navy corrosion issues. Corrosion is a major factor in the readiness and total ownership cost of naval systems and this conference is intended to provide updated information on programs, policies, standards and Fleet experience related to corrosion and to promote discussion and sharing of information on technologies and strategies for controlling corrosion.

The conference provides an impartial forum for dialogue between government and commercial organizations, and providers of coatings and corrosion control products, processes, technologies and solutions. Participants include representatives from military, industry, and government organizations involved with research and development, design, engineering, construction, maintenance, modernization and operation of naval systems that are potentially affected by corrosion. The conference covers all segments of the naval services including sea, air, Marine Corps, vehicles, and facilities.

MegaRust continues to bridge the gap between corrosion issues and solutions. Meeting all the 'movers and shakers' from all disciplines and various industries is exciting and a great networking opportunity. – John Mangano, MegaRust 2019 Chairman; Hempel (USA) Inc.

Section Elections 2019

Nominations for Section Officers for the Tidewater Section of American Society of Naval Engineers are now open!

The following Section positions are available:

- Vice Chair (typically “fleets up” to Section Chair)
- Secretary
- Treasurer (2 year term)

We are also seeking volunteers to fill the following Chairs:

- Awards
- Membership
- Community Outreach (STEM, volunteer opportunities)

The Section Executive Board, consisting of the elected Officers, appointed Chairs, and Section Councilors, is the Society's governing body, and the candidates you elect will play an important role in setting the future course of our Section and ASNE as a whole.

Ballots will go out in May. The terms of office for individuals elected this year will begin on July 1, 2019. By helping to choose the Section's future leaders, you are helping to make the Section and ASNE stronger.

Please include contact information and ensure the person being nominated is willing to serve. (You may self-nominate.)

Submit nominations to:

Reverse Industry Day -- Call for Panelists

From Tidewater Association of Service Contractors (TASC) and Tidewater Government Industry Council (TGIC):

Dear TASC and TGIC Industry Members:

This is a Call for Panelists – “Industry’s Perspective on Pre-Proposal Issues and Protests and How They Can Be Avoided or Minimized During the Acquisition Planning and Solicitation Phases”.

The topic is Reverse Industry Day--- “Industry’s Perspective on Pre-Proposal Issues and Protests and How They Can Be Avoided or Minimized During the Acquisition Planning and Solicitation Phases”.

If you or your company representative would like to volunteer to be on our panel, please contact Mike Carlson at: (757) 339-9097, email mcarlson@ita-intl.com, or Doug Vanderlip at: (757) 581-9493, email doug.vanderlip@gmail.com for coordination and confirmation.

The Event Registration link will be posted at: <http://www.tasc-tgic.org>

TASC / TGIC is hosting the 2nd Reverse Industry Day (RID) 2019 of the Professional Development Program on April 24 at ODU. This RID will focus on contractor activities during the timeframe when many procurement communications “go dark”.

The Sources Sought and request for support/information (RFI/RFS), and Industry Days have been held, and Government is in the days, weeks, and often many months spent developing the final acquisition.

Industry is trying to strategize solutions and teams to meet an as yet unknown requirement.

What can we convey to the Government to keep the communication process open to building an acquisition to deliver the best value solution to meet their customer’s needs with the efficiency and speed demanded by today’s fast-paced world?

Very Respectfully,

Doug Vanderlip
President, TASC 2019

Communication

FMMS 2020

FMMS 2020 will be held in September 2020 at the Virginia Beach Convention Center. We anticipate that setup, a golf outing and collaborative events will be held on September 14th, the main symposium on September 15-16, finishing with additional collaborative events on the 17th. If you are interested in helping with the planning and execution of the symposium, please contact **Charlie Pfeifer** by email at charlie@cgpfam.net.

Tidewater Wooden Boat Workshop Open House

Save the Date! Sunday May 5th is TWBW's 4th Annual Open House, 1-4 PM at the Workshop. (Silent Auction items will be posted on the [website](#) by April 22nd.)

TWBW is a tremendous program if you've not seen it yet. They're doing great work with their High School after-school program. Check out their [newsletter](#).

Membership News

A warm welcome to our new Members: **Robert Barney, Tammy Barney, Keith Lohse, and Brian Benz.**

If you transferred from another section, please shift your chapter association to Tidewater Section. Tidewater Section lapel pins for new members are available for pickup at the monthly dinner meetings.
