

Supervisors of Shipbuilding

SUPSHIP Bath

- DDG51 (Arleigh Burke Class)
- DDG1000 (Zumwalt Class)
- Detachment Marinette, WI
- LCS1 (Freedom Class)
- Detachment San Diego
- T-AO205 (John Lewis Class)
- T-ESB (Expeditionary Sea Base)

SUPSHIP Gulf Coast

- DDG51 (Arleigh Burke Class)
- LHA6 (America Class)
- LPD17 (San Antonio Class)
- LPD17 Flight II (LX[R])
- LCAC (Landing Craft)
- Small Boats (LCU, 40PB)**
- T-ATS (Tug & Salvage Fleet)**
- UISS (Unm Influence Sweep Sys)
- Detachment Mobile, AL
- LCS2 (Independence Class)
- T-EPF (Spearhead Class)

SUPSHIP Groton

- SSN-VA (Virginia Class)
- SSBN-CLB (Columbia Class)
- Submarine Repair
- MTS (Moored Training Ship)

SUPSHIP Newport News

- CVN78 (Ford Class)
- Carrier Repair // Inactivation
- Carrier Refueling (RCOH)
- SSN-VA (Virginia Class)
- SSBN-CLB (Columbia Class)
- Submarine Repair
- MTS Inactivation

1 CAPT (Vacant)

10 Civilians

1243 Direct CivPers
310 Reimb CivPers
+ 118 Military

1671 Total

60,000 employees

\$228+ B
Contract Value

~\$14B Annual

Enabling the Drive to 355 Ships!

ORGANIZATIONAL CHALLENGE:

Instill HVL principles and effectively manage idea flow, solve problems, and share knowledge through the ingenuity and collaboration of our workforce

Foundational Lines of Effort are the Critical Drivers for Overall Mission Success

Design for Talented People

- Empowered Employees
- Sustainable Talent Pipeline
- Motivated Employees
- Growth and Development

THE FORCE BEHIND THE FLEET

Design for High Velocity Learning Environment

- Innovation and Creativity
- Collaboration
- Knowledge Sharing
- Problem Solving

LEADERSHIP CHALLENGE: *Create Direction, Alignment and Commitment*

Organizational Challenge

Learn lessons from our failures and share best practices across all platform projects (CVN and SSN)

Foundational Lines of Effort are the Critical Drivers for Overall Mission Success

- Choose to be in a good mood
- EAA/MWR Activities
- Command picnic
- Command Holiday party
- Special emphasis programs

THE FORCE BEHIND THE FLEET

- Be aware of your surroundings!
- Always wear PPE
- Stop unsafe practices on the spot!

LEADERSHIP CHALLENGE: *Create Direction, Alignment and Commitment*

Six Frigates

Six Frigates: The Epic History of the Founding of the U.S. Navy

- Revolutionary War
- War of 1812
- Barbary Pirates
- Ship Construction
 - Pots of Money (TOC)
- How do we achieve a Culture of Affordability in Shipbuilding?
 - If you don't like change.....

[integrated Digital Shipbuilding \(iDS\)](#)

Visual Planning

Model-based Manufacturing

Visual Build Management

Visual Work Instructions

Mobile Shipbuilder

Shipyards Work Integrated Management System (SWIMS)

Augmented Reality

DESIGN

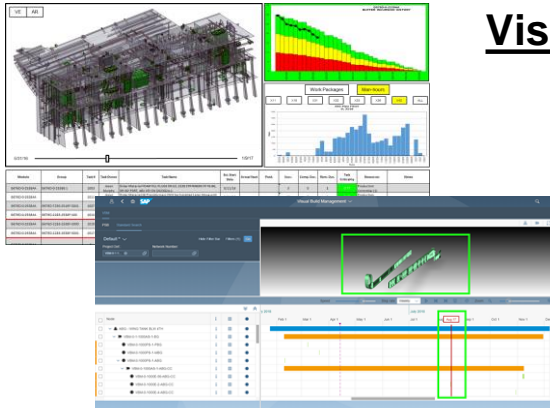

Full 3D Product Model and PLM

Laser Scanning / Reality Capture

Digital Transformation: Digital Products

Visual Build Management (VBM) - DEMO

- For construction supervisors
 - Powerful visual tool for sequencing, coordinating, and managing assembly work
 - Marries visualization, best practice sequencing, critical-chain project management, and eventually advanced analytics
- How it helps
 - Defines optimal sequence for complex major assemblies
 - Reduces waiting
 - Reduces rework (one trade undoing another's work)
 - Mitigates affects of inherent variability in our business (eg weather effects, etc)

3D Interactive Visual Work Instructions (VWIs) - DEMO

- Craftsmen-focused
 - Digital, 3D interactive replacement for drawings
 - Detailed, step-by-step instructions for production
 - Delivered on a mobile device
- How it helps
 - Less off-the-job time (eg getting drawings)
 - Higher first time quality
 - Faster time-to-talent: Complex work now assigned to junior mechanics
 - Fewer turnbacks to Engineering
 - Higher shipbuilder engagement; Less frustration

Digital Transformation: Major Work Streams

New Programs

FORD-Class Carriers: CVN 80/81

Ongoing New Construction

FORD-Class Carriers : CVN 79

In-Service Ships

Nimitz-Class Carrier Overhaul

- Fully annotated 3D Product Model
- Visual Work Instructions (VWI) replace drawings
- Visual Build Management (VBM) for all complex work
- Fully saturated mobile workforce
- Fully-deployed MES via SAP
- Augmented Reality apps in high-value areas

- Partially annotated 3D Product Model
- Increasing use of 3D and 2D digital VWIs
- VBM in high-value applications
- Largely mobile workforce
- Fully-deployed MES
- Augmented Reality apps in high-value areas

- Limited 3D Product Models
- Increasing use of Laser Scanning to digitize ship geometry
- 3D and 2D digital VWIs in pockets
- Partially mobile workforce
- Fully-deployed MES
- Augmented Reality apps in high-value areas

COLUMBIA Class
Ballistic Missile Subs

VIRGINIA Class Attack Subs

Submarine Fleet Support

Submarine Modular Construction

Countdown to Zero Day:
Stuxnet and the Launch of
the World's First Digital
Weapon

Closing Thoughts

- Culture of Affordability in Shipbuilding doesn't mean overall savings for the Navy
 - Must figure out how to Maintain them (Integrate Public and Private Shipyards)
